CARMARTHEN LIBRARY

A case study from our partners at FG Library & Learning UK

Landscape Library Shelving & StoryWall

THE BRIEF

Having undergone a major exterior facelift and refurbishment, Carmarthen Library embarked on a multi-million dollar furnishings project to bring bring Cultural Services to the forefront and support the library's local history and Welsh/Anglo-Welsh collections.

FG Library & Learning (UK) submitted the winning proposal to design and install the shelving and furniture for this high profile project.

Key components of the project included the building's foyer (a bright, modern space), a new children's library, and a new reference library.

Landscape Curve Library Shelving

THE SOLUTION

The library's welcoming new entrance includes custom millwork self service points and comfortable seating.

The vibrant new childrens' library features FGLL's trademark StoryWall, along with Landscape and Landscape Curve Library Shelving. It has become a center for supporting families as they strive to improve reading, literary skills, and confidence.

The newly renovated facilities not only provide a great new home for reference and local history materials, the county archive service is set to be located here in a new extension, with a Makerspace area soon to follow.
