## QuestWall

Whether you are adding game-based learning or a maker space to your library, QuestWall modules give you everything you need to get your visitors going on their quest for accessible learning.

Select from modules designed to facilitate collaboration, engagement, and creativity, including solo and team seating, video/gaming walls, storage, and work benches.

Modules are 36" or 60" wide, depending on function, 24" deep, and 92" high.

## Designing Your QuestWall

1. Download the QuestWall Sketch Pad from [fglibrary-us.com](http://fglibrary-us.com) to help lay out your wall.
2. The QuestWall shell comes in white as standard. If your wall includes a Gaming/Media Wall, choose 1 paint color for trim. If your QuestWall includes shelves, choose 1 laminate for shelves. Choose from one of our standard fabrics or vinyls, or request a quote for a specialty or COM textile.

### QUESTWALL

## CONSTRUCTION

Exterior Shells, Toppers, and Shelves are made with 3/4" laminate construction, with color matched PVC edge banding.

Trim surrounding the opening on the Gaming/Media Wall is painted MDF.

### QUESTWALL

## INSTALLATION

QuestWall modules ship assembled.

Modules are screwed to adjacent modules and to the wall for stability. A 6" void is created behind each module as an electrical chase.

Base modules include a 4" removable toe kick and adjustable feet.
